Lubricated Rotary Vane Vacuum Pumps

VR-L Series

Lubricated Rotary Vane
Vacuum Pumps

The Benchmark for **Powerful, Versatile, and Reliable Vacuum Solutions**

The **ELGi VR-L Series** lubricated rotary vane vacuum pumps are indispensable across various industries due to their robust performance and versatility. These pumps leverage the proven oil-sealed rotary vane principle, ensuring consistent and dependable operation in a wide range of vacuum applications.

The ELGi VR-L Series offers exceptional efficiency and adaptability, making it the ideal choice for industries requiring high-performance vacuum solutions. With the ELGi VR-L Series, you benefit from time-tested technology combined with innovative engineering, guaranteeing superior performance and longevity.

APPLICATIONS

Discover the diverse sectors where ELGi VR-L Series Lubricated Rotary Vane Vacuum Pumps can be used.

CERAMICS

MEDICAL APPLICATION

GLASS, STONE & WOOD

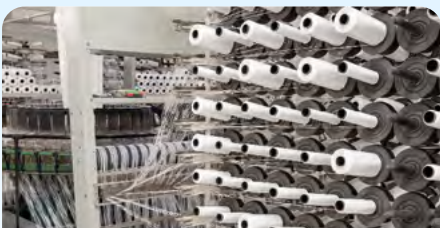

AUTOMOBILE

SEMICONDUCTOR

PLASTICS

TEXTILE

FOOD PACKAGING

NON-FOOD PACKAGING

FEATURES AND BENEFITS

ROBUST DESIGN

Proprietary Vane Material: Delivers exceptional longevity, reducing replacement frequency and operational costs.

Industry-Leading Warranty: Offers customers unparalleled peace of mind and protection for their investment.

50 Years of Vacuum Technology Expertise: Ensures reliable, field-tested performance across diverse applications.

EFFICIENT OPERATION

Advanced Oil Backflow Prevention Design: Maintains a clean working environment, protecting sensitive processes and products.

Innovative Gas-Ballast System: Efficient handling of water vapor, expanding the pump's versatility across various applications.

Low Noise Operation: Creates a more comfortable work environment, potentially reducing the need for additional noise protection measures.

BEST-IN-CLASS WARRANTY *

Experience peace of mind with the ELGi VR-L Series. Our vacuum pumps are backed by an exceptional warranty program, setting a new standard in the industry for both product quality and customer assurance.

AFTER SALES SERVICES

The after-sales services from ELGi is designed to maximize value for customers. ELGi's efficient service processes ensure reliability of vacuum pumps while minimizing operating costs.

Comprehensive Maintenance Solutions

ELGi takes charge of the maintenance planning and regular servicing of your vacuum pump. By utilizing the latest technology, ELGi ensures high energy efficiency and optimizes service schedules to minimize your total cost of ownership while maximizing productivity.

Expert Vacuum Specialists

ELGi's vacuum specialists are dedicated to enhancing your system's uptime and safeguarding your processes. Regular maintenance by ELGi's specialists reduces the

risk of wear and tear. Damaged or worn components are replaced with genuine ELGi spare parts, protecting your investment and extending the lifespan of your vacuum pumps.

Genuine Parts and Professional Service

Using ELGi's genuine parts and service enhances the performance of your vacuum pump, minimizes the risk of downtime, and ensures smooth, uninterrupted production.

Elgi Equipments Limited is a global air compressor manufacturer with a broad line of innovative and technologically superior compressed air systems.

ELGi has consistently worked towards ensuring that its customers achieve their productivity goals while keeping the cost of ownership low. ELGi offers a complete range of compressed air solutions from oil lubricated and oil free rotary screw

compressors, oil lubricated and oil free reciprocating compressors and centrifugal compressors, to vacuum pumps, dryers, filters, and downstream accessories.

With its world-class technology, superior service, and best-in-class warranty, the company's portfolio of over 400 products has found wide application across various industries.
